

[7] REVISION HISTORY

Version 0.1.0 - 2026-04-24

Status

- Checked pre-release.
- Schematic capture completed from the working breadboard prototype.
- Breadboard prototype tested with a Fluke 289 multimeter.
- PCB layout completed and ready to fabricate for further hardware testing.

Added

- Initial KiCad schematic for the FIC-100A USB IR adapter.
- Initial 2-layer PCB layout.
- Initial generated manufacturing and documentation workflow.

Notes

- This release is intended for fabrication and test validation. The PCB has not yet been validated as an assembled production unit.
